****EVERYWHERE YOU LOOK,
THERE'S ANOTHER METAL ROOF****

Commercial and Industrial Roofing and Siding

Serving ALL Your Building Needs

Goldin Metals, Inc. is a leading manufacturer of Steel Roofing & Siding with four locations to serve you. Our Commercial and Industrial Roofing and Siding panels are highlighted in the R-Panel, 5V Crimp, Corrugated, and Goldin Choice Standing Seam lines. Each profile, highlighted below, offers durability and dependability and is available in a multitude of colors, and gauges, that will suit almost any need.

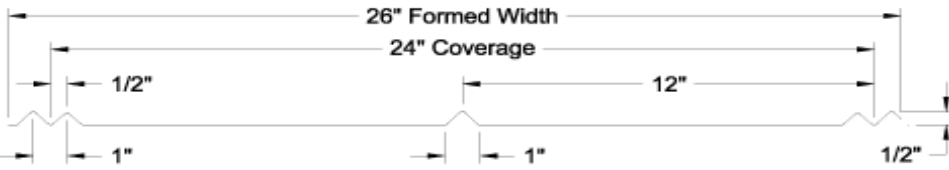

R-PANEL

The R-Panel's heavy duty design provides 36 inch coverage, and is one of the most versatile Panels on the market. The R-Panel is a popular choice due to the ease of installation, high wind/tear resistance, and its overall strength. Its clean, sleek look blends perfectly with any project you have in mind.

5V CRIMP

The 5V Crimp's ultra-low profile provides 26 inch coverage and offers the look of elegance at an economical price. This Panel is highly functional, very durable, and has a low maintenance cost. Goldin's 5V Crimp panel incorporates a classic design that will add beauty to any Commercial project.

CORRUGATED

The Corrugated profile offers builders a classic, aesthetically pleasing style for very visible roofs. The 24 inch coverage and design offers increased strength and durability for any project. The corrugated Panel is extremely versatile and is well suited for both roof and wall applications.

*Note that the customer stained wall Panels for an aged visual effect

GOLDIN CHOICE STANDING SEAM

There are 7 different varieties of Standing Seam Panels available in the Goldin Choice series. From the 1" snap seam with a slotted strip for fastening, to the 1 3/4" structural Snap Seam with clips made to span purlins, to the mechanically seamed profile with clips available when the specifications require. We have the right Panel for the job.
